HAND DELIVERED

Ms. Robin Clukey  
Maine Department of Environmental Protection  
Bureau of Land and Water Quality  
106 Hogan Road  
Bangor, Maine 04401

**RE: DCP Midstream Partners, LP, Searsport, Maine**  
**Application for Site Location of Development Act Permit**

Dear Robin:

Enclosed please find a supplemental submission for DCP Midstream Partners' application for a Site Location of Development Permit for its proposed propane terminal in Searsport, ME. The supplemental information reflects completion of the final grading and stormwater management design for the developed site, based on the information received from on-site geotechnical studies. This submittal includes revised replacement pages and drawings and two new drawings to be inserted in the application that was submitted on May 20, 2011. The geotechnical results and the response from the Searsport Water District to DCP's request to the District to supply the new terminal's water needs are also included. The attached table summarizes how this new information is to be inserted.

Impacts to jurisdictional natural resources did not change as a result of the revisions to the final grading and completion of the stormwater design. If you have any questions, please do not hesitate to contact me.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven Wallace", written over a horizontal line.

Steven Wallace  
TRC Environmental Corporation

Enclosures/Attachment
